## Head Of Product Management

### Description

The Head of Product to lead its innovative team and digital platform development. Our mission is to simplify everyone's personal finance management. To be the primary driver of the Company's product vision; overseeing the development, management, and execution of the product and its roadmap based on the adopted strategies and vision. This position requires that a person closely work with the engineering, design, marketing, sales, and other departments. The position also requires that the incumbent be adept at synthesizing various technologies and capabilities into the business's products in such a way that partners and consumers will love.

### Responsibilities

1. In partnership with the executive team, identify opportunities and risks for delivering the company's services as an app-based business, including identification of competitive services, opportunities for innovation, and assessment of marketplace obstacles and technical hurdles to the business success.
2. Identify technology trends and evolving social behavior that may support or impede the success of the business
3. Evaluate and identify appropriate technology platforms (including web application frameworks and the deployment stack) for delivering the company's services.
4. Lead strategic planning to achieve business goals by identifying and prioritizing development initiatives and setting timetables for the evaluation, development, and deployment of all app-based services.
5. Participate as a member of the senior management team in establishing governance processes of direction and control to ensure that objectives are achieved, risks are managed appropriately and the organization's resources are used responsibly, particularly in the areas of software development, office networks and computers, and telecommunications
6. Establish a governance process that meets government, regulator, partner and company expectations for customer information privacy.
7. Direct development and execution of a company-wide information security and disaster recovery and business continuity plan
8. Oversee the innovation and improvement of the e-Wallet products as well as the day-to-day product activities in such a way that ensures that the product is constantly growing to suit partner and consumer needs.
9. Ensure that necessary steps are being taken to make any modifications that are being made in the product or strategy in order to bring out the best results for the business.
